Experience

1248 Technologies

Sep 2022 - Aug 2023

- Worked for EMINDS from DEC 2022 - FEB 2023
- Worked for COFORGE from JUN 2022 - AUG 2023

TechStack - HTML, CSS, PYTHON, TypeScript, ReactJs, NodeJS, MongoDB, webpack

ConsultIT

Jun 2020 - Aug 2022

- Worked on a video-sharing mobile application and optimized the loading time.
- Worked on an aptitude test application. Used Redis to not make unnecessary db calls to MongoDB and after completion of the whole exercise store data in MongoDB.

Deployed application to the production server, using Google Cloud Platform and Google Play Console.

TechStack-Flutter, ReactJs, TypeScript, NodeJs, MongoDB, Redis, firebase, GCP

Block8

May 2018 - May 2019

- Worked on a real-time trading application.
- Created POC for a blockchain-typescript application. Wrote the unit test cases for the entire application.

TechStack - Android Studio, ReactJs, MeteorJs
