Experience

1248 Technologies

Sep 2022 - April 2023

- Worked on the ONDC platform which is a GOI project.
- Worked on the becn protocol which works behind ONDC.
- Created UI components in ReactJs based on Figma designs.
- Created backend API endpoints in NestJS.
- Wrote unit test cases.

TechStack - TypeScript, ReactJs, NodeJS, MongoDB

ConsultIT

Jun 2020 - Aug 2022

- Worked on a video-sharing mobile application and optimized the loading time.
- Worked on an aptitude test application. Used Redis to not make unnecessary db calls to MongoDB and after completion of the whole exercise store data in MongoDB.
- Deployed application to the production server, using Google Cloud Platform and Google Play Console.

TechStack - Flutter, ReactJs, TypeScript, NodeJs, MongoDB, Redis, firebase, GCP

Paxcom

May 2019 - Apr 2020

- Wrote the script to convert the Excel data to HTML so that we can send it to our clients
- worked on automatic testing using selenium web driver

TechStack - ReactJs, ExpressJs, TypeScript, MongoDB

Block8

May 2018 - May 2019

- Worked on a real-time trading application.
- Created POC for a blockchain-typescript application.
- Wrote the unit test cases for the entire application.

TechStack - MeteorJs, ExpressJs, TypeScript, MongoDB
